Emergency Medical Services for Children

NATIONAL RESOURCE CENTER

December 21, 2011

Selwyn Mahon, MD
Virgin Islands EMS Medical Director
9048 Sugar Estate, 5th Floor
St. Thomas, VI 00802

Dear Dr. Mahon:

You have been selected to serve on the Emergency Medical Services for Children (EMSC) National Resource Center (NRC) Advisory Council for the July 2011 to June 2013 biennium. We look forward to a successful working relationship over the coming years.

As stated in the application instructions, **the first meeting of the advisory council will be held February 16-17, 2012 in the Washington, DC-area.** Council members are expected to attend the annual in-person meeting, and the NRC will cover all meeting expenses. You will receive more information regarding the meeting, including travel and hotel information, in the near future.

In addition, members are expected to participate in at least one of the council's expert activities, either as part of a group effort, or on an individual basis. Examples of such include, but are not limited to, participation in the development of guidelines, policy statements, and other products and resources; review and update of existing guidelines, policy statements, and other products and resources; presentation at NRC-sponsored meetings; or provision of expert opinion to EMSC Program grantees and other constituents whom the NRC serves. We will discuss these activities at the February 2012 meeting.

More information on the council, including membership terms, requirements, and council activities, may be found in the attached advisory council bylaws. By accepting a seat on the council for the July 2011 to June 2013 biennium, council members are agreeing to abide by these bylaws.

Again, congratulations on your selection. If you have any questions, please do not hesitate to contact Karen Belli, Senior Public Policy and Partnerships Specialist, at kbelli@childrensnational.org or 301-244-6227. I look forward to seeing you in February.

Sincerely,

Joseph L. Wright, MD, MPH
Principal Investigator and Medical Director
EMSC National Resource Center
Children's National Medical Center
