

US Virgin Islands Notifiable Conditions 2017

Guidelines for the reporting of suspect, probable and confirmed cases

A — H	When To Report	I — T	When To Report
[‡] Acute flaccid myelitis (AFM)	Immediately	Influenza:	<i>Varies:</i>
[‡] Anthrax	Immediately	▪ Influenza-associated pediatric mortality	Immediately
*Arboviral infections ¹ ▪ Neuroinvasive ▪ Non-neuroinvasive	<i>See footnote:</i> Immediately to within 4 work days	▪ Novel influenza A virus infection ▪ [‡] Seasonal	Immediately Within 4 work days
Babesiosis	Within 4 work days	Invasive [‡] pneumococcal disease (<i>Streptococcus pneumoniae</i>)	Within 2 work days
Botulism: ▪ Foodborne ▪ Infant ▪ Other (wound and unspecified)	Immediately	Legionellosis	Immediately
Brucellosis	Immediately	Leptospirosis	Within 4 work days
Campylobacteriosis	Within 4 work days	Listeriosis	Within 4 work days
Canchroid	Within 2 work days	Lyme disease	Within 4 work days
<i>Chlamydia trachomatis</i> infection	Within 2 work days	Malaria	Within 4 work days
Cholera	Immediately	[‡] Measles (rubeola), total	Immediately
[‡] Chickenpox (varicella)	Within 4 work days	[‡] Meningococcal disease (<i>Neisseria meningitides</i>)	Immediately
Childhood diabetes mellitus (age <20)	Within 4 work days	[‡] Mumps	Within 4 work days
Ciguatera	Within 2 work days	[‡] Pertussis	Immediately
Coccidioidomycosis	Within 4 work days	Plague	Immediately
Coronavirus, novel, including SARS	Immediately	[‡] Poliovirus: ▪ Poliomyelitis, paralytic ▪ Poliovirus infection, non-paralytic	Immediately
Cryptosporidiosis	Within 4 work days	Psittacosis (ornithosis)	Within 2 work days
Cyclosporiasis	Within 4 work days	Q fever: ▪ Acute ▪ Chronic	Immediately
[‡] Diphtheria	Immediately	[‡] Rabies: ▪ Human ▪ Animal	Immediately
Ehrlichiosis/anaplasmosis: ▪ <i>Ehrlichia chafeensis</i> ▪ <i>Ehrlichia ewingii</i> ▪ <i>Anaplasma phagocytophilum</i> ▪ Undetermined	Within 2 work days	[‡] Rubella: ▪ Rubella infection ▪ Congenital syndrome	Immediately
<i>Escherichia coli</i> (O157)	Immediately	Salmonellosis	Within 4 work days
Encephalitis: ▪ Amebic ▪ Bacterial ▪ Viral, including [‡] Japanese encephalitis	Immediately	Shigellosis: ▪ Shiga toxin-producing <i>Escherichia coli</i> (STEC)	Within 4 work days
Enterovirus D-68	Immediately	[‡] Smallpox	Immediately
Giardiasis	Within 4 work days	Spotted fever rickettsiosis	Within 4 work days
Gonorrhea	Within 2 work days	<i>Staphylococcus aureus</i> (drug resistant)	Within 2 work days
[‡] <i>Haemophilus influenzae</i> , invasive disease	Immediately	<i>Streptococcus pneumoniae</i> (drug resistant)	Within 2 work days
Hansen's disease (leprosy)	Within 2 work days	Syphilis: ▪ Congenital ▪ Early latent ▪ Late latent ▪ Late with clinical manifestations ▪ Primary ▪ Secondary	Within 2 work days
Hantavirus infection: ▪ Non-Hantavirus pulmonary syndrome ▪ Hantavirus pulmonary syndrome	Within 4 work days	[‡] Tetanus	Within 4 work days
Hepatitis: ▪ [‡] Hepatitis A, acute ▪ [‡] Hepatitis B, acute ▪ Hepatitis B virus infection, chronic ▪ Hepatitis B virus infection, perinatal ▪ Hepatitis C, acute ▪ Hepatitis C virus infection, chronic	Within 2 work days	Toxic-shock syndrome: ▪ Streptococcal ▪ Staphylococcal	Within 4 work days
*Human immunodeficiency virus ² : ▪ HIV/AIDS	Within 2 work days	Trichinellosis	Within 2 work days
		[‡] Tuberculosis	Immediately
		Tularemia	Immediately
		[‡] Typhoid fever (<i>Salmonella typhi</i>)	Immediately
		Vancomycin resistant: ▪ Enterococcus ▪ <i>Staphylococcus aureus</i> (VISA, VRSA)	Within 2 work days
		Vibriosis, excluding cholera	Within 4 work days
		Viral hemorrhagic fevers (HFs): ▪ Crimean-Congo HF ▪ Dengue HF ▪ Ebola HF ▪ Guanarito HF ▪ Junin HF ▪ Lassa HF ▪ Lujo HF ▪ Machupo HF ▪ Marburg HF ▪ Sabia-associated HF	Immediately
		[‡] Yellow fever	Immediately

In addition to specified reportable conditions, **any outbreak, exotic disease, or unusual group expression of disease that may be of public health concern should be reported by the most expeditious means available.**

***See condition-specific footnote for reporting contact information**

¹ **A.** Please refer to the EPI-2 "Dengue, Chikungunya and Zika Reporting Form" available at doh.vi.gov/forms/pdf/EPI-2.pdf to report these conditions. All other arboviral disease including additional flaviviral or alphaviral infections must be reported as "other" and **immediately** using EPI-1 form.

B. All diseases should be reported using EPI-1 "Notification of Infectious Disease Form" available at doh.vi.gov/forms/pdf/EPI-1.pdf.

Please send HIV/AIDS reports to the HIV/STD Program at Charles Harwood Complex on St. Croix (Fax: 712-6209) or Knud Hansen Complex on St. Thomas (Fax: 776-5466).

‡ Vaccine preventable diseases.
