

# KEEP YOUR KITCHEN A PEST-FREE ENVIRONMENT

Practice integrated pest management

1

## WASTE MANAGEMENT

Keep waste bins covered when not in use and ensure they are emptied regularly.

4

## STORE FOOD CORRECTLY

In sealed containers at the proper temperature

2

## ROUTINE CLEANING

Maintain a regular cleaning schedule to deny pests a source of food and water. Cleaning schedule should include: a complete list of items to clean (i.e. floors, walls, ceilings, work surfaces, equipment, etc.)

5

## CONTROL FLYING INSECTS

Use fly traps or electric insect trap. Dispose, replace, and clean traps regularly.

3

## SEAL ENTRANCES

Keep windows and doors closed. Look for and seal any holes, cracks or crevices. Install screens on windows and doors.

6
